From the Desk Of

Ron Martorelli

Dear OLPH CAB Alumni:

Do you remember sitting in one of these?

We have been working to improve our Classroom Learning Environments by upgrading our desks, converting our old chalkboards to whiteboards, improving the lighting by allowing more sunshine in the room, making our teachers more comfortable by providing them with proper desks and storage, and helping them be more effective teachers with better instructional technology.

We have been able to undertake these initiatives through grants and donations, and most especially through the continued support of our alumni. Thank you for all that you do for us and please make sure that your current address and email are on file with us so that we may invite you to OLPH CAB events so that you can see what our students are doing today to keep the OLPH spirit alive and well! You can update your information at www.olphcab.org,

By the way, our students will be sitting in these in the future. Ready to come back to school?
